FUEL TANKS (UNDERGROUND)

The following items **MUST BE** submitted before your building permit application can be processed. The information submitted must be complete and accurate.

- Building Permit Application Form
- Two (2) site surveys or two (2) plot plans
- Manufacturer's Installation Instructions

GENERAL INFORMATION

Building Permit Application Form: Complete a Building Permit Application (available at the Scott County Building Department).

Site Survey/Plot Plan: Provide an updated plot plan of your property showing all property lines, existing buildings and dimensions, setbacks, wells, septic tank and drainfield locations, and proposed underground fuel tank location(s) with setbacks.

Approval from the State Fire Marshal's Office: A copy of the approval.

Failure to provide all of the above information will delay or prevent permit approval. After a preliminary review, additional information may be required. **Allow 10-15 working days for processing.**

REQUIRED INSPECTIONS:

1. Tank air test (5 P.S.I.) before tank goes into ground.
2. Gas line air test and visual tank inspection (when tank and piping are in place before being backfilled).
3. Final – at final, provide leak detection test report.

Any questions, please call Scott County Community Development at 952-496-8475.
