UER URBAN EXPANSION RESERVE ZONING DISTRICT

Purpose: This District is to preserve land in those areas of Scott County identified in its Comprehensive Plan for logical future extension of urban land uses served by public utilities. This zoning district is intended to preserve these areas of the County in very low rural development densities or clustered residential developments that may be compatibly integrated with future urban development. This district is also meant to perform the following functions;

- To conserve land in a viable economic status until such time as public utilities may be extended and urban development densities may be supported.
- To reduce the possibility of urban/rural land use conflicts in both the use of the land and future extension of public utilities and other infrastructure items.
